The D800 and D800E are the same camera, differing only in having a slightly different filter in front of their sensors. Therefore, everything about how they work is the same. I only mention one or the other throughout this guide for the sake of not having to type them both all the time. My apologies for you needing this guide at all.

Contrary to what others have said, there is something very new in the technical guide. It talks about the D800 performing better than the D800E at smaller apertures that cause more diffraction. Though the D800E is slightly sharper most of the time, apparently it's slightly softer at smaller apertures.
