Kinship and Marriage : Robin Fox : 9780521278232

Marriage and Kinship Marriage is recognized as the basic foundation on which family is formed. Anthropologists view marriage as a way of different societies understanding mating and its consequences. It is a union of two people that is used to regulate heterosexual relationships, stating who is an acceptable sexual partner and who is not.

Marriage and Kinship - Free Essay Example | StudyDriver.com

Kinship is a technical field in anthropology because small societies are organized almost wholly on the basis of kin relations. Typically one is related to everyone else so all other persons are either relatives by blood or by marriage. The principle is well recognized among Australian Aborigines who have what are known as sections.
