1440p = 2560 x 1440 - Is commonly known as QHD or Quad HD resolution, and it is typically seen on gaming monitors and on high-end smartphones. 1440p is four times the resolution of 720p HD or "HD ready."

What do the 720p, 1080p, 1440p, 2K, 4K resolutions mean ...

Now, the resolution is expressed in dpi (or ppi), which is the acronym for dots (or pixels) per inch. So, if you see 72 dpi it means that the image will have 72 pixels per inch; if you see 300 dpi means 300 pixels per inch, and so on. The final size of your image depends on the resolution that you choose.
