WEST LAFAYETTE, Ind. — Every rock on Mars is a time capsule for Briony Horgan, potentially holding information from billions of years ago that could help answer the questions about life in the universe today. Horgan, an associate professor of planetary science at Purdue, soon will have an opportunity to delve into those questions by searching for evidence of past microbial life as part of the NASA Mars rover Perseverance mission.

Is there other life in the universe? Purdue scientist is ...

Intended for the undergraduate science major, or above. Voyage Through the Universe: Stars, Time-Life Books. This volume is one of a series that examines the Universe in all its aspects. General information for the upper high school student (and above), related to black holes, will be found in the 'Neutron Stars and Black Holes' chapter.
